SUMMARY

Full-Stack Developer and Computer Engineering graduate (2025) with six months of professional experience at INEV Technologies. Built a multi-tenant LMS, a React Native rental application, and custom workflow-automation tools. Proficient across NestJS/Express, React/Next.js, React Native (Expo), and PostgreSQL/MySQL environments.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, PHP, SQL, Python, C#, C++, GDScript
- **Frontend:** React, Next.js, React Native (Expo), Angular, Tailwind CSS, HTML5/CSS3
- **Backend:** Node.js, NestJS, Express.js, REST APIs, WordPress (Plugins, Block Themes, Gutenberg)
- **Databases & Infrastructure:** PostgreSQL, MySQL, Redis, Prisma ORM, MongoDB, Docker, Linux (Fedora)
- **Security & Architecture:** JWT, Multi-Factor Auth (2FA), Role-Based Access Control (RBAC), Input Validation

PROFESSIONAL EXPERIENCE

Full-Stack Developer *2026 — 3 months*
INEV Technologies *Bharatpur, Nepal*

- Developed backend and frontend features using NestJS, Express, PHP, React/Next.js, and Angular.
- Engineered custom WordPress plugins and Full Site Editing (FSE) block themes with decoupled React dashboards.
- Optimized relational databases by designing schemas and data layers with native SQL and Prisma ORM.

Software Development Intern *2026 — 3 months*
INEV Technologies *Bharatpur, Nepal*

- Built responsive client user interfaces and reusable UI modules within modular React and Angular architectures.
- Designed, integration-tested, and documented REST API endpoints utilizing Node.js, Express, and MySQL.
- Debugged application logic and regressions across client and API layers within Git versioning workflows.

ENGINEERING PROJECTS (INEV Technologies)

Multi-Tenant Learning Management Platform *NestJS, Prisma, PostgreSQL, Redis, React, TypeScript*

- Engineered a multi-tenant LMS microservice architecture to serve individual institutions from a unified core API.
- Built core features including automated assignments, structural quizzes, progress tracking, and certificate generation.
- Integrated Khalti, eSewa, and Dodo Payments handling financial splits, instructor wallets, and analytical reporting.

Rental Property Management Mobile App *React Native, Expo, TypeScript, Express.js, Prisma, PostgreSQL*

- Developed a cross-platform mobile rental management app with distinct workflows for landlords and tenants.
- Built tracking features for tenant onboarding, bill calculations, push notifications, and QR payment profiles.

Visual Workflow Automation Engine *WordPress Plugin, PHP, React, TypeScript, React Flow*

- Designed a no-code visual workflow canvas handling event triggers across WordPress and WooCommerce cycles.
- Built an interactive node-graph editor using React Flow with ahead-of-time schema validation controls.

Appointment Booking Engine *WordPress Plugin, PHP, React, TypeScript, MySQL*

- Created a booking engine with an algorithmic slot-availability calculator and a React admin dashboard.

INDEPENDENT PROJECTS

- **Smart Canteen Payment System (Final Year Project):** Campus payment app utilizing NFC card architectures, user digital wallets, and automated PHP/MySQL backend transaction logic.
- **Service Provider Booking Platform:** A multi-role marketplace handling customer-provider matchmaking built using Angular, Node.js/Express, and optimized MySQL endpoints.

EDUCATION

B.E. in Computer Engineering *2025*
United Technical College, Pokhara University, Nepal *Registered Engineer, Nepal Engineering Council*
